

地点：天津大学应用数学中心，第六教学楼108报告厅

10月26日		报告题目
主持人	王风雨	
09:00-09:35	李增沪	Stochastic equations for measure-valued branching processes with immigration
09:35-10:10	毛永华	Markov chains: what to do with NEXT!
10:10-10:30	茶歇	
主持人	李增沪	
10:30-11:05	洪文明	Asymptotic behaviour of heavy-tailed branching processes in random environments
11:05-11:40	范协铨	Exact rates of convergence in some martingale central limit theorems
	午餐	
主持人	洪文明	
14:30-15:05	张梅	Branching processes in random environment with immigration stopped at zero
15:05-15:40	胡二彦	Heat kernel estimates for singular non-local Dirichlet forms on metric measure spaces
15:40-16:00	茶歇	
主持人	邵井海	
16:00-16:35	黄兴	Distribution Dependent SDEs with Holder Continuous Drift and α -Stable Noise
16:35-17:10	马宇韬	Poincare inequalities for measures on spheres
18:00-	晚餐
